

PRESS RELEASE

Poker Games Interactive LLC and LT Game join hands to demonstrate the first Live Dealer Video Poker games at the Macau MGS Entertainment Show in 15-17 November 2016

Hong Kong - November 15, 2016 - Poker Games Interactive LLC and LT Game, a subsidiary of Paradise Entertainment Limited (SEHK: 1180), have entered into a Macau distribution agreement to create video poker games for LT Game's Live Multiple Game ("LMG") System which has live dealers, supports multiple tables and has a terminal-based multi-game selection system in Macau market. The groundbreaking demo version of this combination of video poker with a live dealer will be displayed at the Macau MGS Entertainment Show in 15-17 November 2016.

Dragon Tail Poker™ is a new five card video poker game that allows players to place bets on extra replacement cards to increase their odds of a winning hand. This new gameplay is based on Poker Game Interactive LLC's patent on game technique and uses a touch screen design made specifically for the LT Game LMG System.

"Poker Games Interactive is bringing us a unique new way to play video poker" says Jay Chun, Chairman and Managing Director of Paradise Entertainment Limited. "LT Game is always trying our best to keep introducing new games and technologies to casino operators. We are excited to introduce this video poker demo on our LMG System and expect these games to complement our existing baccarat games as we grow the availability of our Stadiums setup in Macau."

David Haag, Poker Game Interactive CEO says, "Having an opportunity to partner with LT Game to bring video poker to their unique platform is a perfect fit with our mission of creating great games for Macau markets and new user experiences on the casino floors. LT Game's unique Stadiums are a game changer for the ways that live dealer card games are played and we are proud to be partnered with them to make video poker games available using their technology in Macau."
